🏠 Chennai, INDIA

Profile

Motivated and detail-oriented Java Full Stack Developer with a passion for creating seamless, responsive, and user-friendly web applications. Led a project to re-engineer processes, enhancing communication across 10 departments and reducing paperwork by 75%. Successfully integrated front-end and back-end technologies, achieving a 30% performance boost and a 20% increase in user engagement.

Skills

Front-End : HTML 5 - CSS 3 - JavaScript - Angular - Bootstrap 5

Back-End : Java - OOPs - Core Java - J2EE - CRUD - JDBC – JSP – Servlet – SpringBoot

Data-Base : MySql

Version- Control : GitHub

Internship

Pipin Fashions and Retail Pvt Ltd, Bangalore— Software Developer Intern

- Gained knowledge of e-commerce company operations and identified a number of problems with fictitious complaints regarding product delivery.
- I developed software that enables users to record or upload films in order to detect whether EAN digits are present in barcodes.
- This application is used to proceed with a video-proofing statement on fabricated or untrue claims once the things are packaged.

Projects

EAN Verification Detector – (Python, MySQLite Database)

- By capturing the packaging process, software was developed to detect the EAN number of each product.
- This program assists in avoiding false or fraudulent complaints made by some clients and avoids manual mistakes.
- Data was discovered in a SQLite database and translated into Excel sheets.
